

2008 Summer Intern Grant Application

The Chesapeake Bioscience Education Foundation (C-BEF), an initiative of the Virginia Biotechnology Association (VaBIO), is offering matching funds of \$1,500 each for up to ten internships for the summer of 2008. The biotechnology or medical device company must be planning to match or exceed the \$1,500 award for the intern. The intern must be enrolled in or a recent graduate of a Virginia institution of higher education. Selection will be based upon the quality of the proposed internship experience.

Key Contact Name from Company: (First, Middle, Last)	
Title:	
Company Name:	
Address:	
Telephone & Fax:	
E-Mail:	
Company Description:	

Please respond to the following questions on a separate attachment.

- 1) Please provide the name, home institution and any relevant academic qualifications of the designated intern.
- 2) Please describe the duties and training opportunities for the proposed internship experience.
- 3) How much will the intern be paid and what are the proposed hours of work?
- 4) What are the start and end dates for the internship experience?
- 5) Has your company employed summer interns in the past?

Those companies selected will receive their grant in two payments, 50% at the outset and the balance at the conclusion of the summer internship after VaBIO receives documentation on the hours worked and the completion of a student questionnaire.

Instructions:

Please email the application and attachments to questions@vabio.org by COB May 1, 2008. A committee will review the applications and select up to ten companies to receive the matching grants. If you have any questions, please contact us at 804-643-6360.
